History

Most of the former base administrative area is now used for offices and an industrial park. The 190th Air Refueling Wing (190 ARW) of the Kansas Air National Guard continues to part of the airport as a military cantonment area and Air National Guard installation known as **Forbes Field Air National Guard Base**; the wing currently flies and maintains the Boeing KC-135R Stratotanker.

From 1942 to 1973 the following Air Force components supervised the airfield:

- Second Air Force, 1942–1945
- Continental Air Forces, 1945–1947
- Air Material Command, 1947–1948; 1949–1951 (In inactive status)
- Strategic Air Command, 1948–1949; 1951–1964
- Tactical Air Command, 1964–1973
- Air National Guard, 1973 – present

Pretty much explains itself.

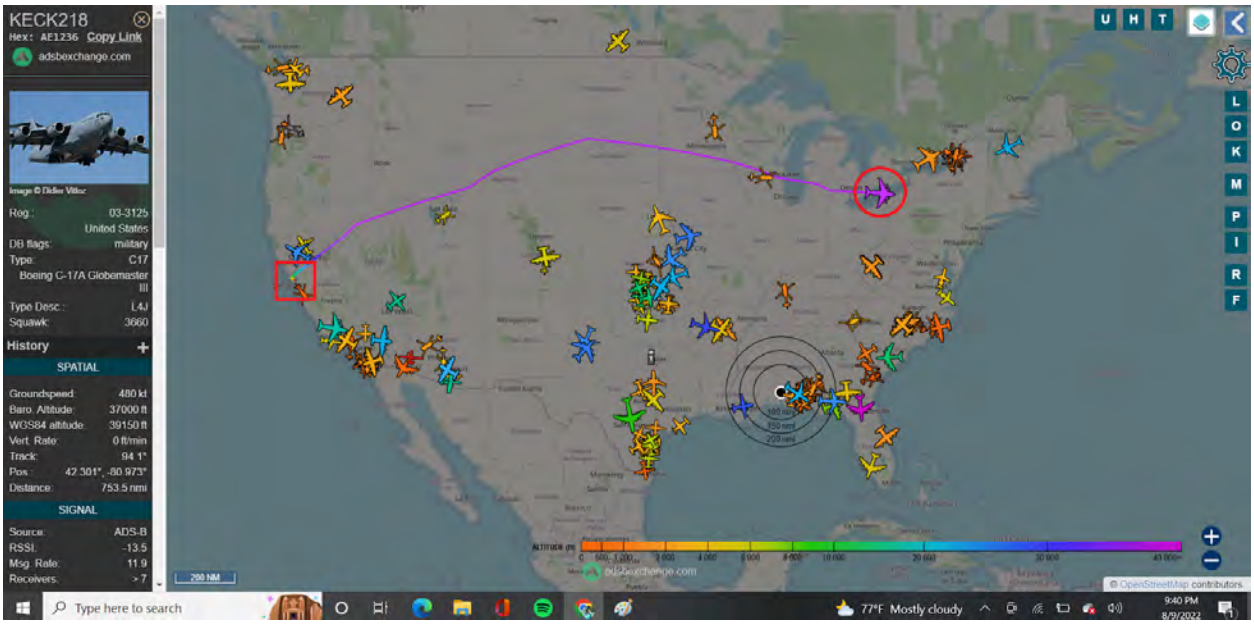
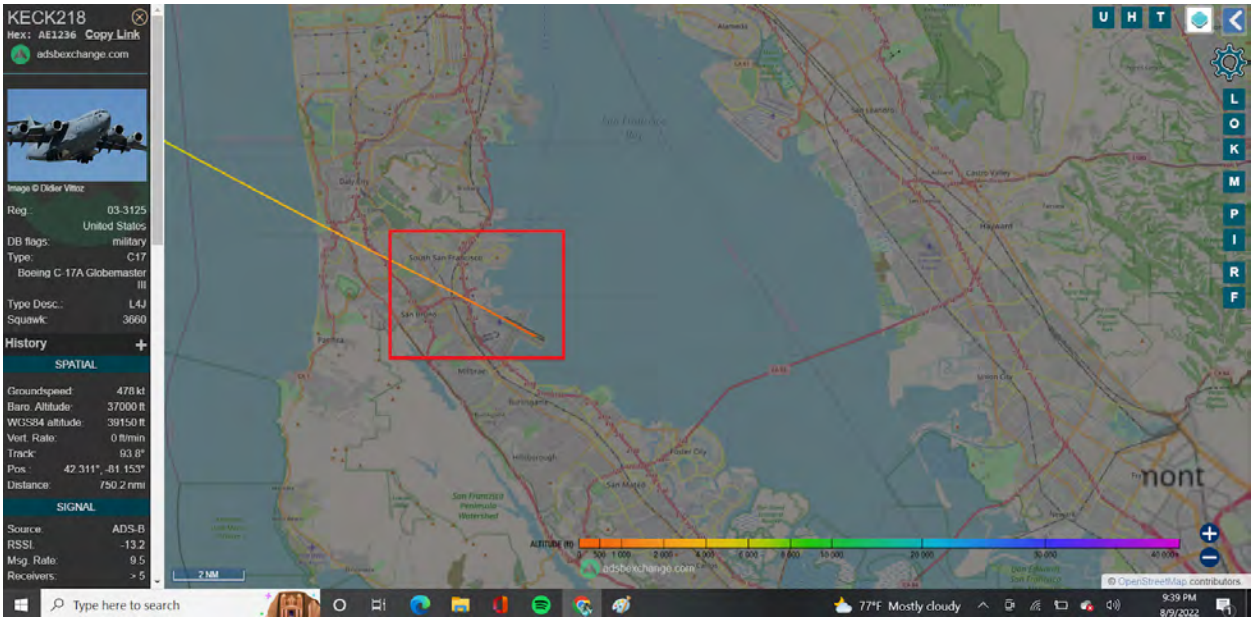
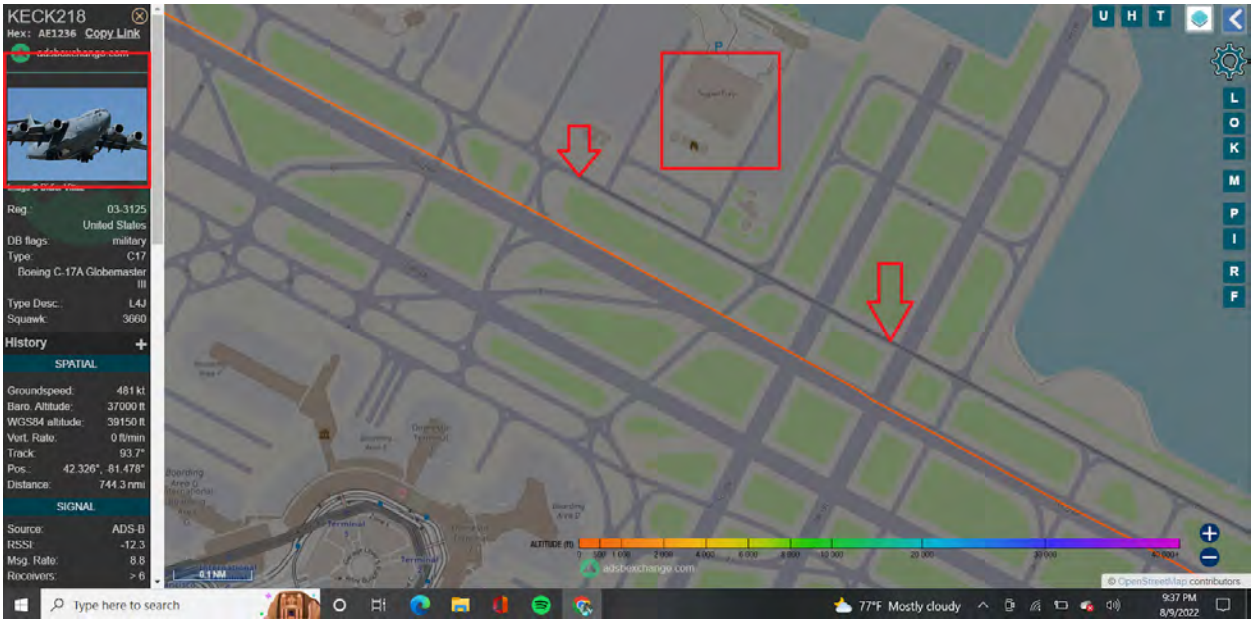
The French Aircraft from a day or so back. On the Washington state line.

August 9, 2022:



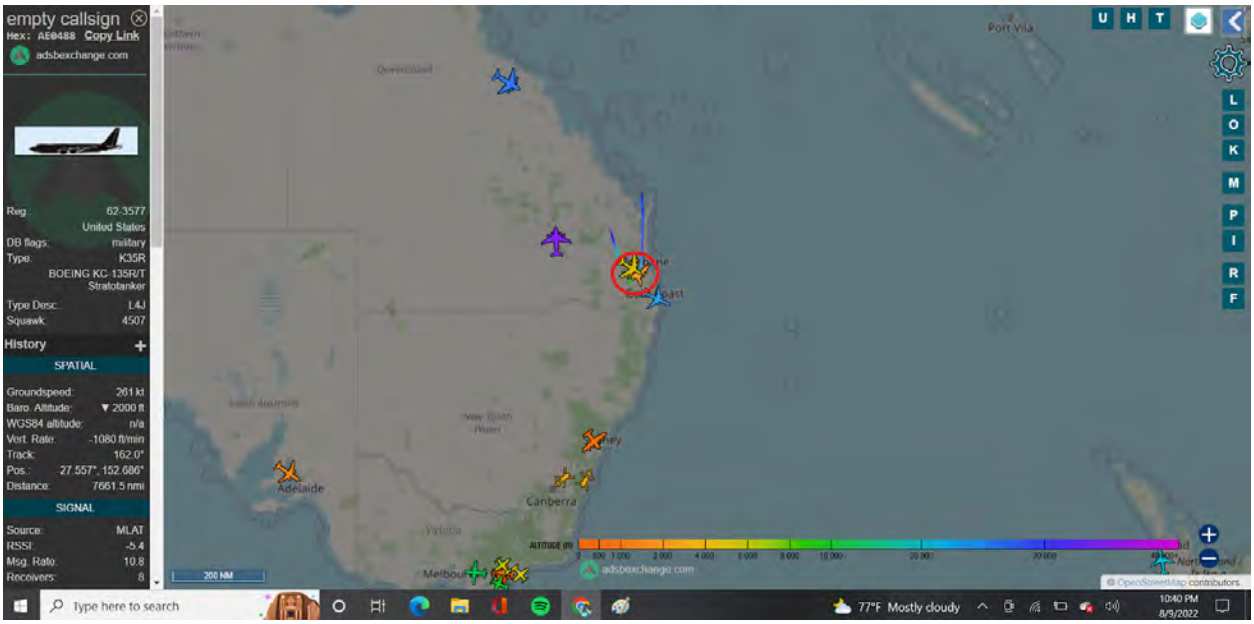


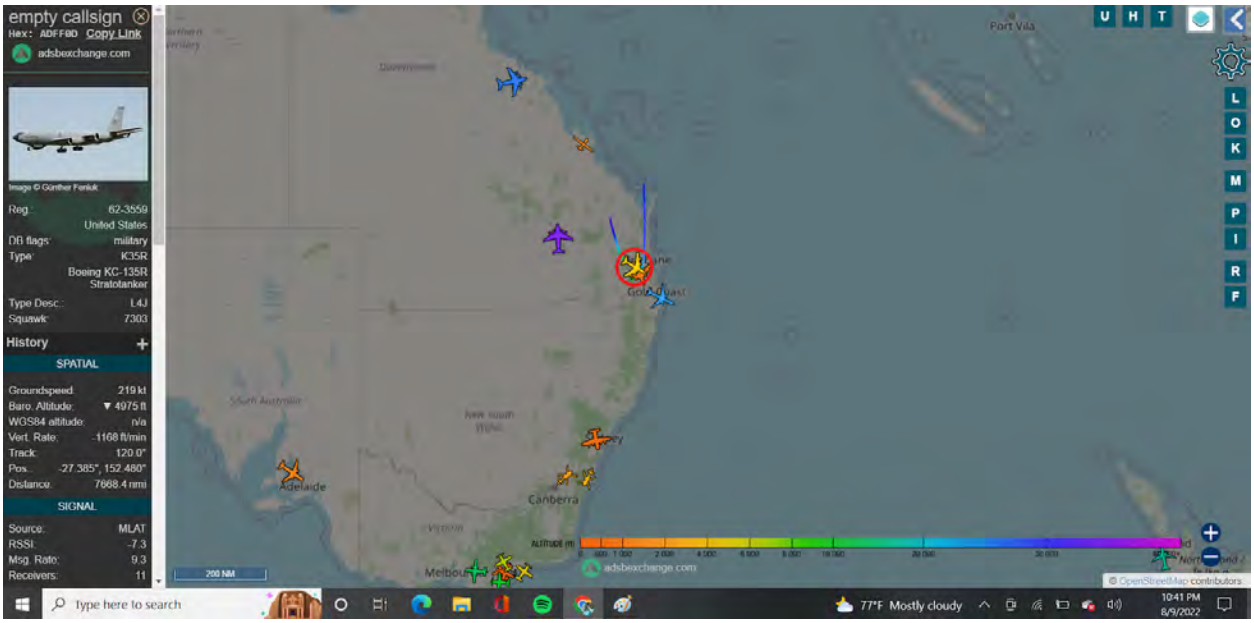


C-17 Globemaster from California

By this point… you should know **<u>Logistically</u>** speaking with these big birds… we wouldn't need one from California to fly pure across the country because we have plenty of these birds all over.

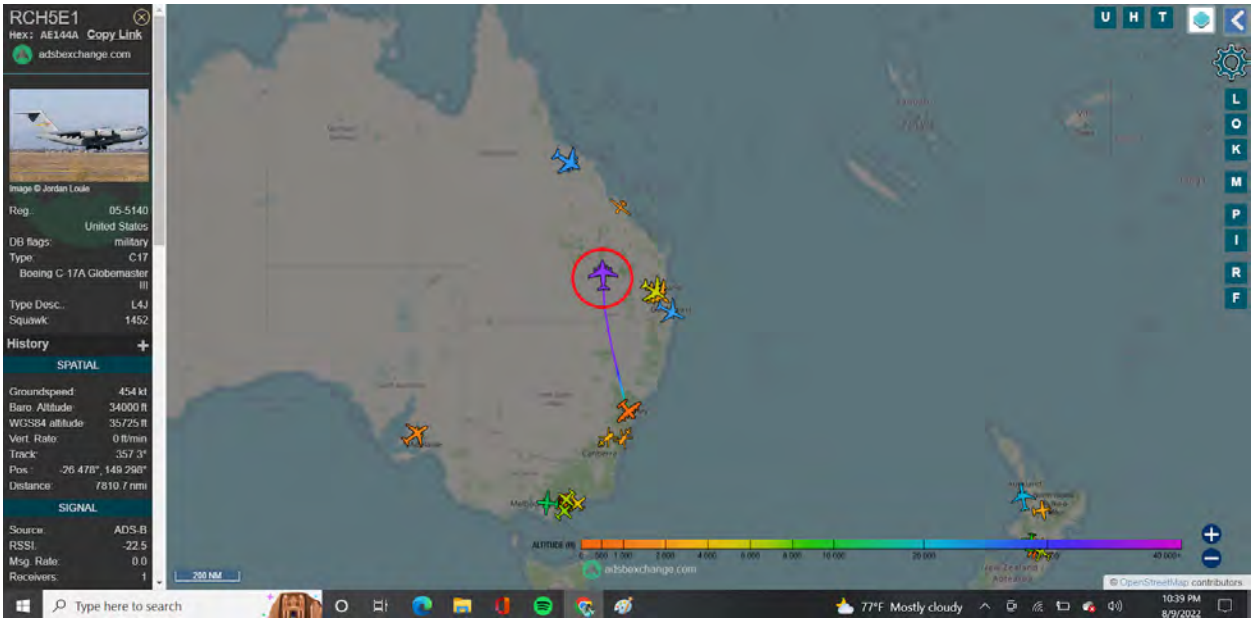
This one is cool:





2 United States KC-135R/T's in Australia

And…



U.S. C-17A Globemaster III in Australia

Based out of **March Air Reserve Base** in Riverside, California.

Imagine that…

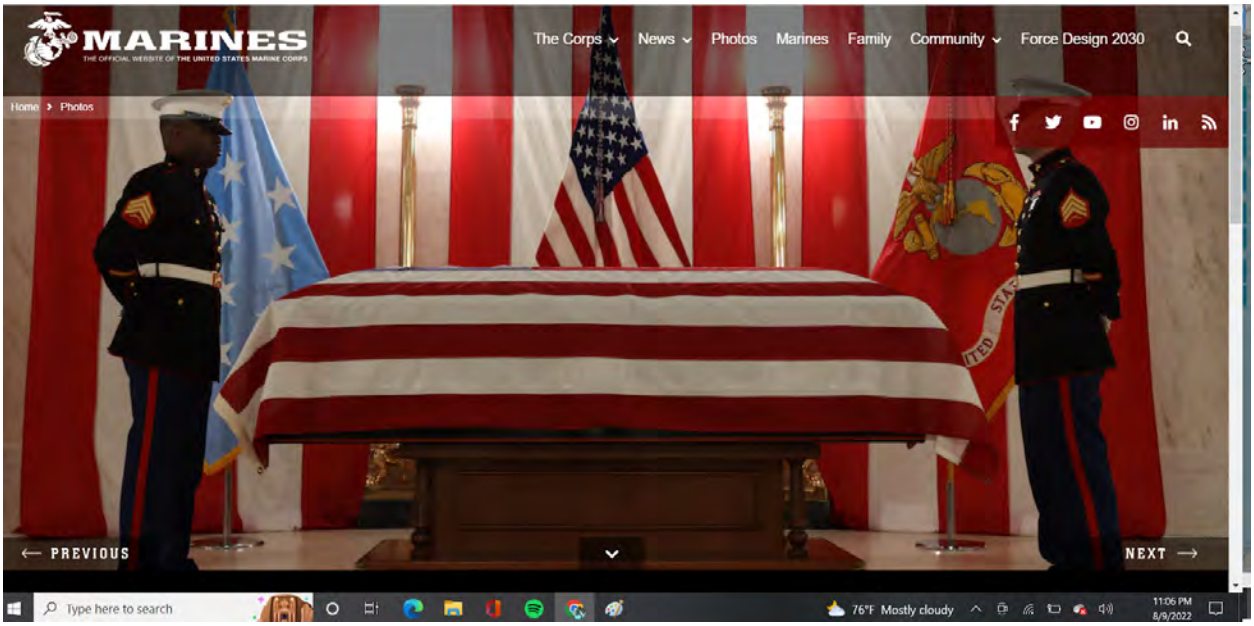
“At March Air Base, we perform the Remotely Piloted Aircraft mission. This involves a variety of operations, including close air support, air interdiction, intelligence collection and quick strike capabilities with minimal danger to military personnel. Additional missions include Intelligence, Weather and Intelligence, Surveillance and Reconnaissance (ISR).”

March Air Reserve Base:
https://www.march.afrc.af.mil/

MARB:

https://en.wikipedia.org/wiki/March_Air_Reserve_Base

All it takes is a little knowing Military Regs and Research even if you aren't a Veteran.



This is why Military Law and Regulations matter.

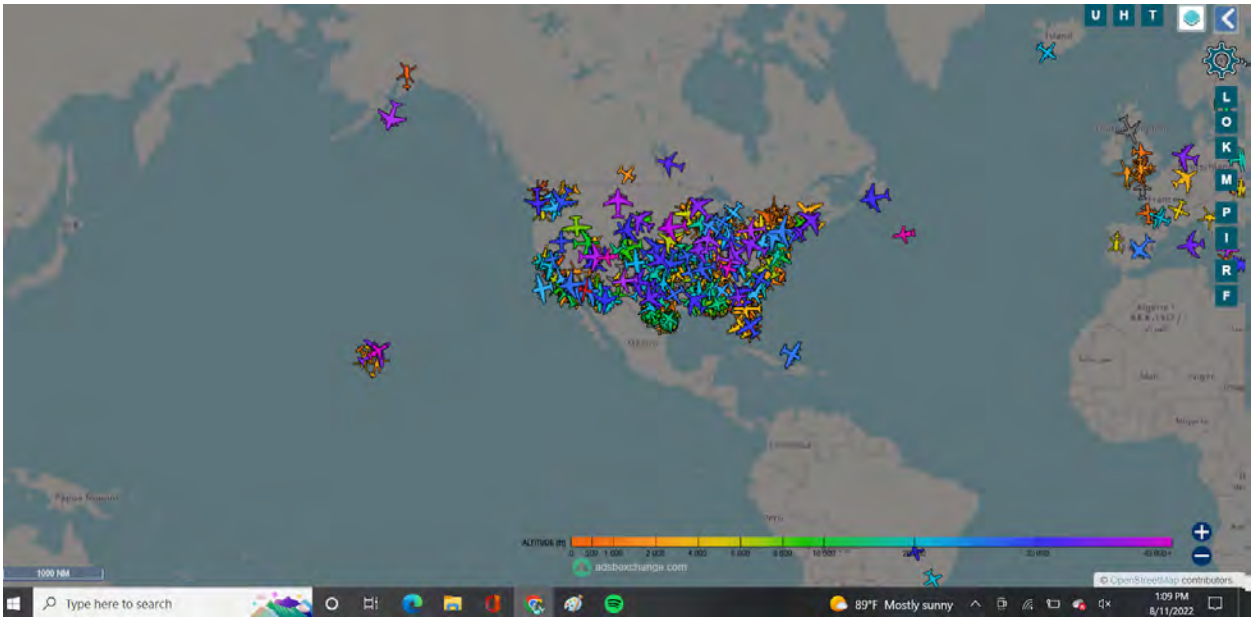
Nothing is a coincidence.



All Military Aircraft at 1:09 PM CST

And platforms like Doug Billings says the Military is not in control HAHAHAHAHA

He thinks because he got a picture with Pres Trump, “friends” with General Flynn, and has visited a few bases that he’s an expert on Military now. The woods are full of ‘em!

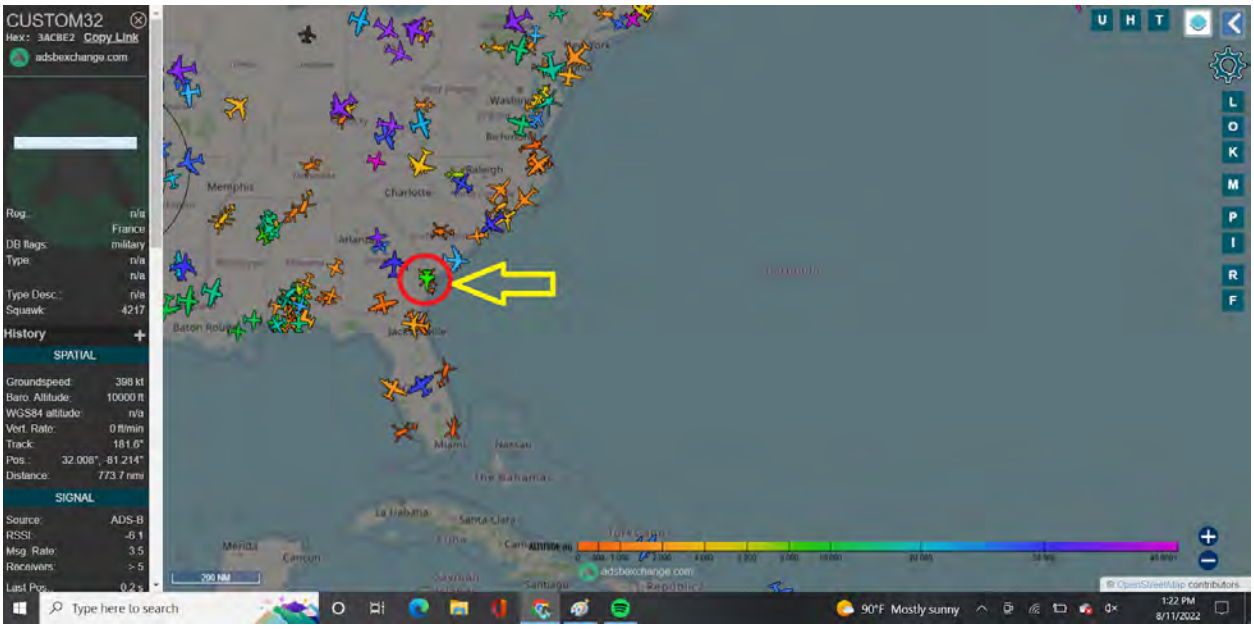
All these “experts” on Rumble, TruthSocial, Telegram trying to make a name and a buck $.

None thus far have or are laying out Military Law, Military Regulations, Military Symbolisms, Military Code, Executive Orders, Presidential Emergencies, Presidential Acts, National Emergencies issued by President Trump, the Constitution, Federal Law, US

Codes, and how they form a Blueprint to what every single American has witnessed from 2017 to 2021 to present day.

It wasn't a secret. It happened right in front of everyone.

And here we have this goodie to follow my ruthless Veteran syndrome



Unmarked France Fighter Aircraft in the United States

C-32A is known as “Air Force Two” when carrying the Vice President, the First Lady, and Secretary of State.

“Kamala Harris” is in Las Vegas
“Jill Biden” is with Actor Joe in South Carolina
Antony Blinken is on a 10 day excursion in the Philippines, Rwanda, Congo, etc.

The only other role of the C-32A is it serves the Special Air Mission, providing executive transport and broad communications capabilities to senior political officials, and Special Operations.

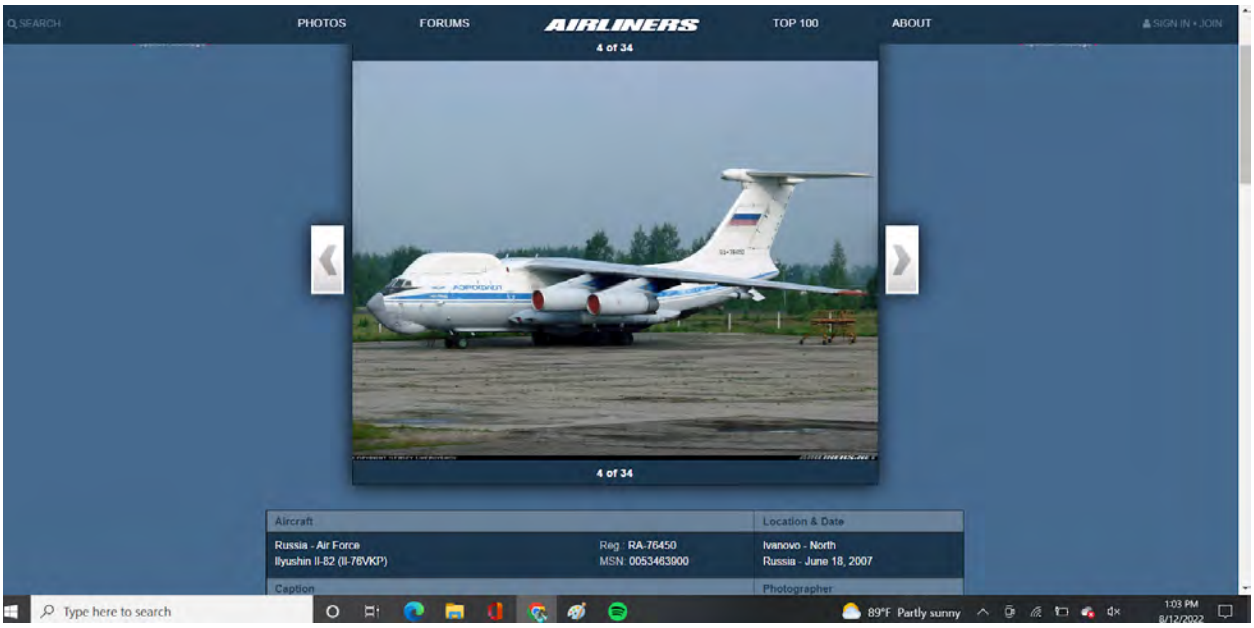
Russian **ILYUSHIN II-82**

The II-82 is an airborne early warning reconnaissance aircraft.



The II-82

C-26D Metro

https://en.wikipedia.org/wiki/Fairchild_C-26_Metroliner

Also proving the Military is in complete control as the PRESIDENT is the ONLY person who can activate the National Guard to Federal Duty… check out this paragraph from the Wiki Link above on the C-26D Metro.

"In early June 2020, the US **National Guard** deployed an RC-26B to El Dorado Hills near Sacramento, California, apparently in response to a walking tour by young black entrepreneurs. **The deployment occurred without the knowledge or approval of Gavin Newsom, the Governor of California.**"

Who was the President in June 2020?

This also proves the President and Military does not have to tell you the citizens “sh*t from Shinola,” as my Dad likes to say.

Instead you can know by the fact of how the Military operates via Regulations such as who activates National Guard for State Emergencies versus National.

Now remember from above… the Belgium Aircrafts in the United States?

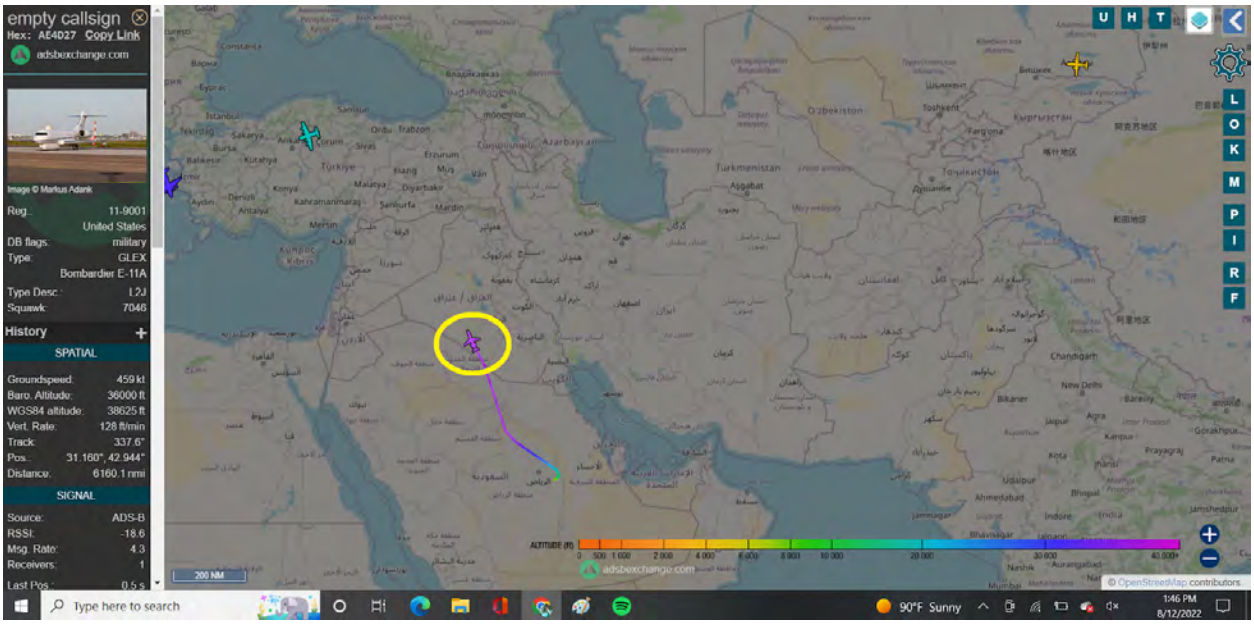
No coincidence.



E-11A Bombardier again

C-37A from August 11 in California August 12

Call Sign = Mango28

With C-37's and C-32's… all you have to do is Google where the Lamestream Media is saying the "leaders" are… as in the primary users of these aircrafts.

There were two C-32's in the air on August 11… they're called "Air Force Two" when the VP is aboard…

None of the primary users of the C-32 were anywhere near where those aircrafts were.

I already know because I know what's been going on the past 5 years, but things like this should paint a clear picture.

Don’t overthink it.

Imagine that.

Fort Wayne **Air National Guard** Base
https://en.wikipedia.org/wiki/Fort_Wayne_Air_National_Guard_Base

Controlled by:

https://en.wikipedia.org/wiki/Air_Combat_Command

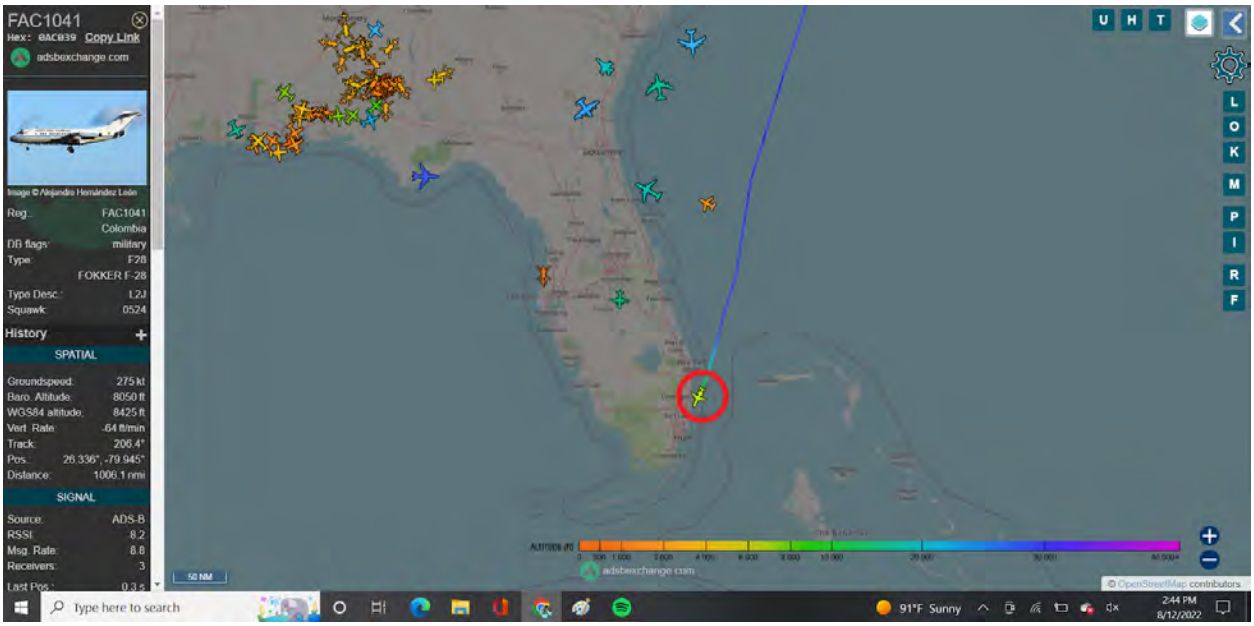
The most awesome aircraft.

We walk around doing this: “Brrrrrrrrrppp”

Because it sounds like Bernie from Sesame Street from the weapon on the front you’re looking at as it unloads rounds on towelheads.

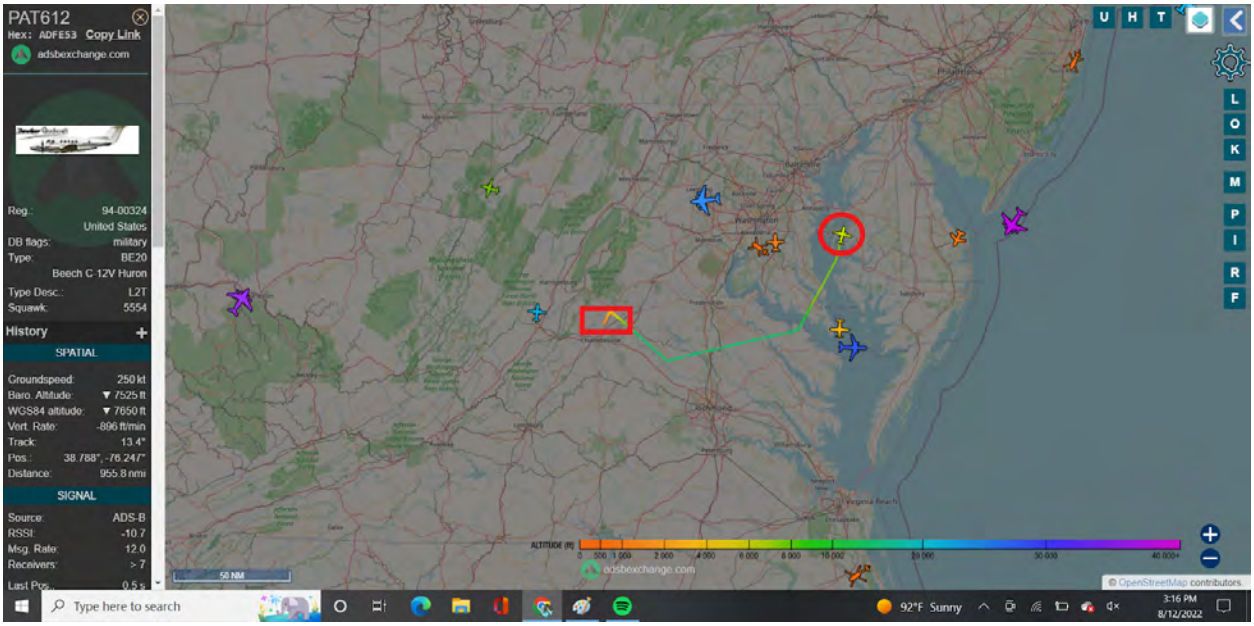
Here’s a video of live action:
https://www.youtube.com/watch?v=gXgtyyXjDm4

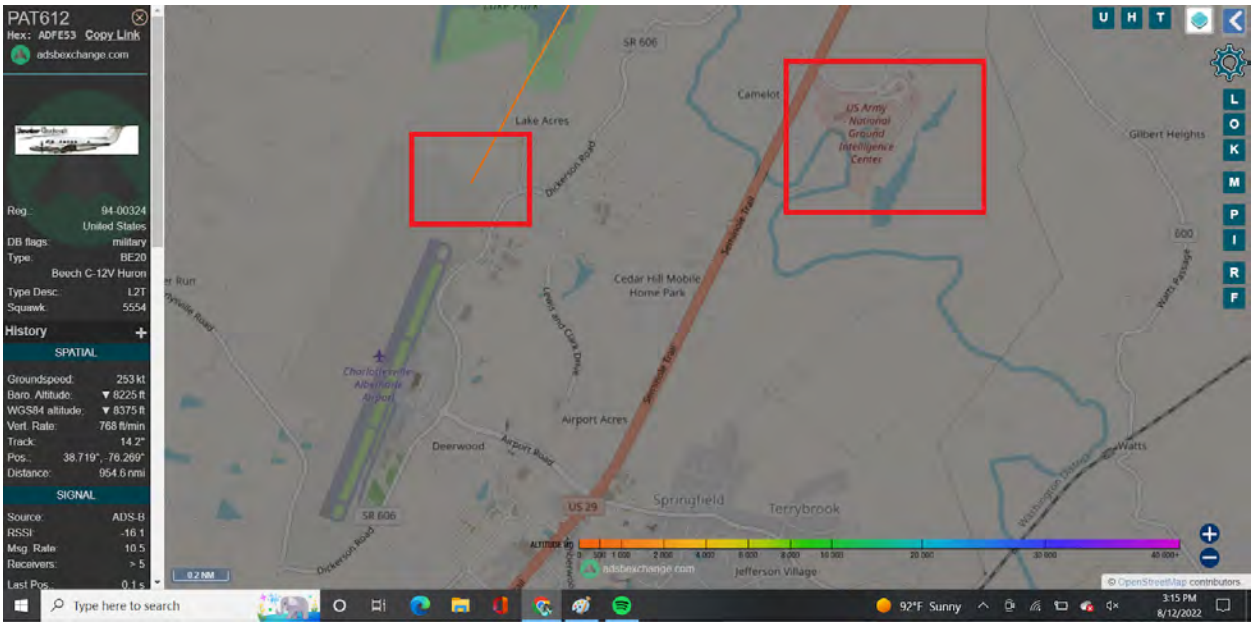
Ahhhhh and look who’s landing in south Florida:



The **Columbian** Military Aircraft

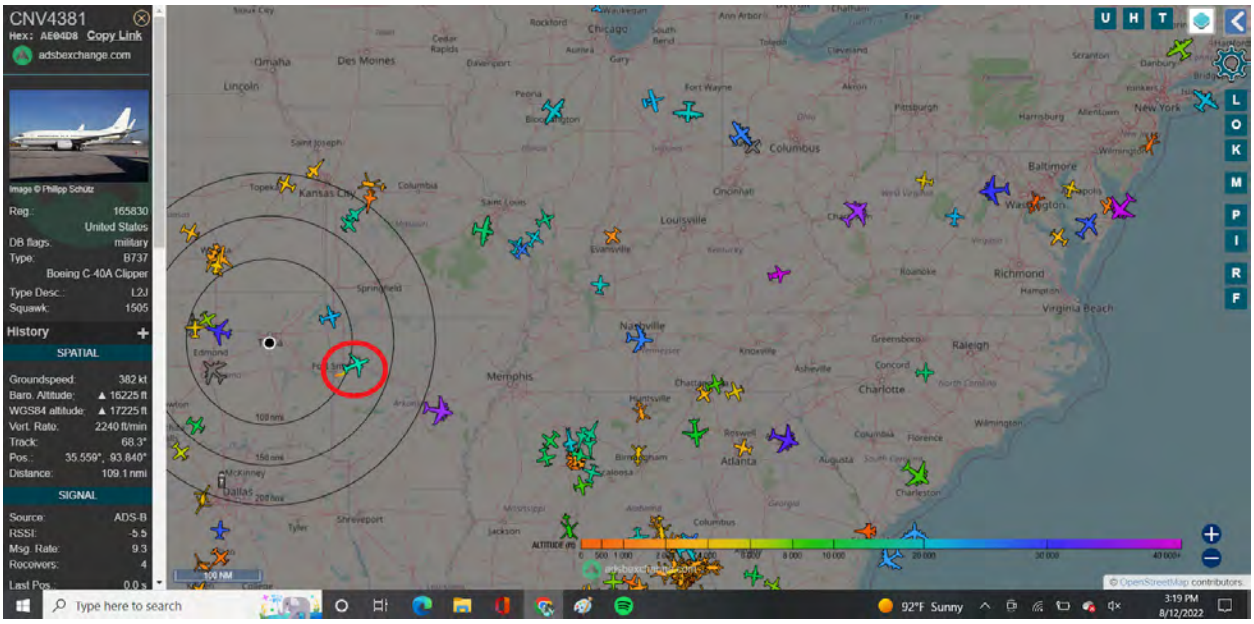
Where is Mar-a-Lago, Florida, again?





C-12V Huron

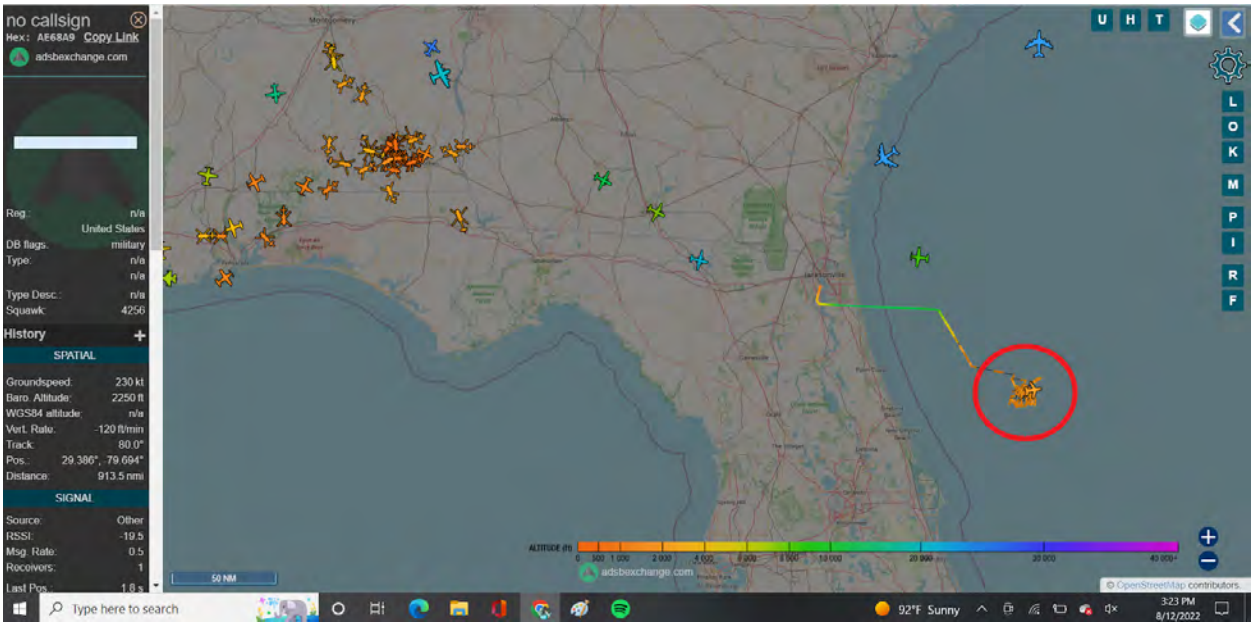
Virginia **National Guard**



C-40A Clipper

No special significance with this C-40… I just posted this to show you, if the average American believes “Speaker of the House Nancy Pelosi” actually traveled to Malaysia and Taiwan… do you believe they’d put her on the every day C-40 Clipper versus a C-32 or even a C-37?

Get outttttta here.



Unmarked U.S. Aircraft over the United States Maritime Border flying around 500 to 1,000 feet altitude in many rotations.

Ask yourself this question…

If “Joe Biden” was actually real, not an actor, and was actually President…

Would you rather pay $6.39 for a gallon of milk, $3.30 plus a gallon for gas, taxes sky high, inflation sky high, food prices record highs, stock market plummeting, amongst many other things, but have the greatest defense in the country and be safe?

Remember that “Magic Wand” Obama jokingly asked a crowd if then campaigning candidate Trump had?

So, how was President Trump able to get this Country underhand economically while also remaining the top in defense across the world?

And you believe “Joe Biden” is capable of being Commander-in-Chief of all of those aircrafts you see on the board plus those I choose to highlight, but he’s the biggest MORON economically and policy wise?

See how dumb that feels to even think that could possibly be true?

Versus believing what the Uniform Code of Military Justice (Military Law) and Federal Law says, believing Military Regulations, Military Symbolisms, Military Codes and Code Language, Optics, Operations, Executive Orders, Presidential Emergencies and PEADs, National Emergencies and how they’re addressed by Law, Title

32, Title 10, Stafford Act, National Emergencies Act, Insurrection Act of 1807, 47 United States Code 606…

Powers of the President:
https://thehill.com/opinion/white-house/510878-americans-have-to-know-the-truth-about-the-powers-of-the-president/

It’s a LOT easier to believe what’s been written in Law for MANY years versus some ridiculous scenario which would make anyone a laughing joke to any logical and sane person.

How many times must I kick this dead horse?

The only way the National Guard from one state can operate in another is to be FEDERALLY activated by the President.

The only Federal activations were January 6 and 17, 2021.

Who was your President?

C-37s have been visiting our Space Force Bases.

And then just like that, a buddy sent me this:

Some day, some folks will listen to Veterans with no agendas or platforms to make $$$.

All of my Documents are straight up Military Law, Military Regulations, Military Symbolizations, Military Optics, Military Operations, the Constitution, and Federal Law.

If I’m wrong, then nothing from June 1775 to present day mattered and everyone who served for this Nation died in vain.

Ahhhh you know, let’s just fly directly over White House again. Second Military Aircraft of the day.

33 mile No Fly Zone radius.

Our Military have to have a reason to be there.

Well, they do. Those happened in Executive Orders 13848 and 13919, and 47 US Code 606, Title 10, Title 32, Insurrection Act 1807, Stafford Act, National Emergencies Act, amongst many other pieces of Law and Orders.

Every single Executive Order Oslama signed was PRO ARAB.

Arabians are against Christians. That’s Biblical.

Who was Oslama’s VP?

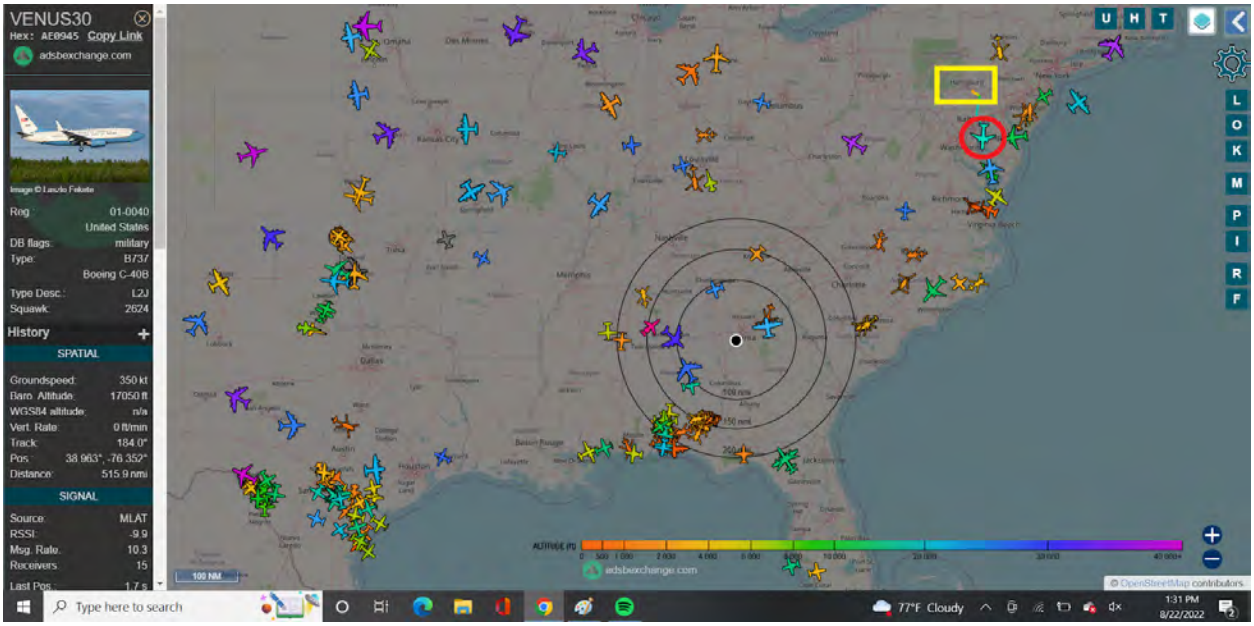
All Military at 1:30 PM CST



C-40B Clipper from Pennsylvania National Guard

Check out the date on this:

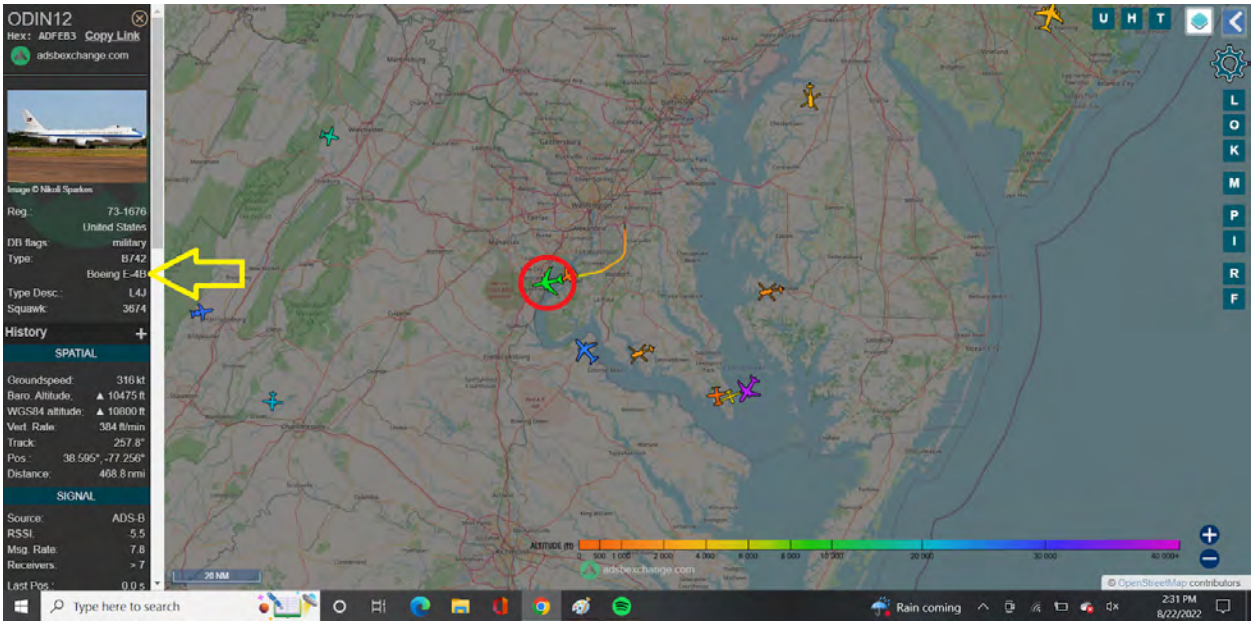
Who was President September 2017?



Here’s the **DOOMSDAY Plane** again. **E-4B**.

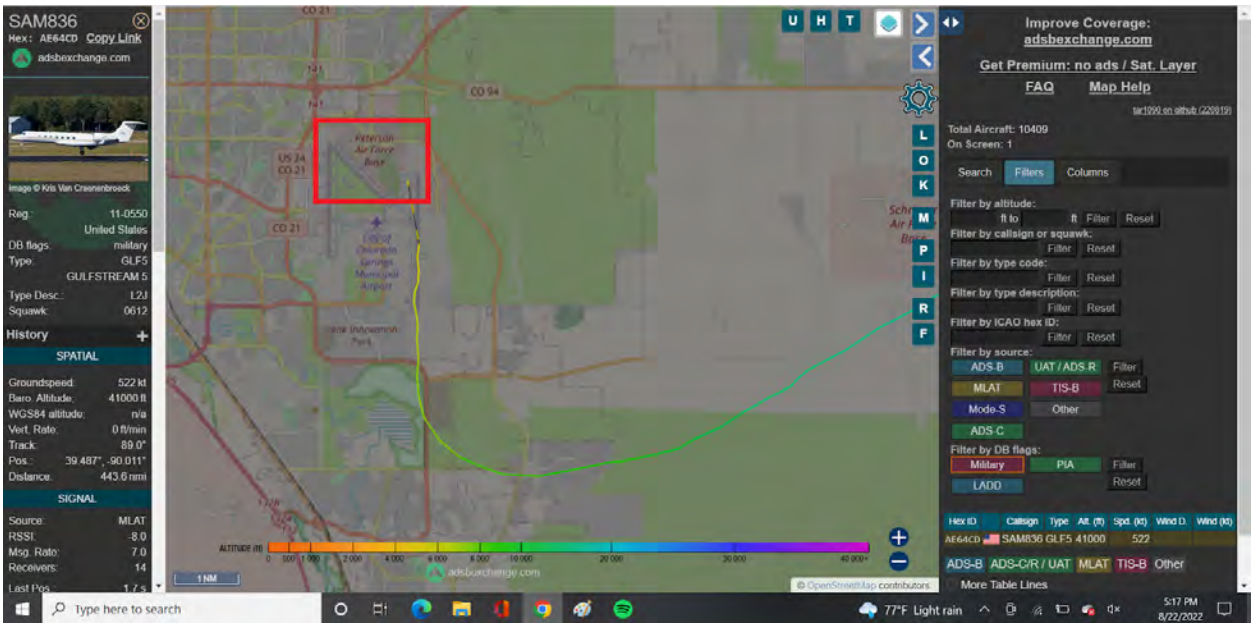
SAM836 taking off from Peterson Air Force Base

PAFB = **Space Force Base**



SAM836 taking off from Peterson Air Force Base

SAM = Special Air Mission

Remember, the Army transferred all their Communications to Space Force: https://www.spoc.spaceforce.mil/News/Article-Display/Article/3128682/army-transfers-satellite-communications-mission-to-ussf-all-military-satcom-und

All Military Communications now under ONE Command.

Who created the independent Space Force?

And who made fun of him for doing so?

That's what I thought.

And you believe Joe Biden is President outside of all Military Law, Military Regulations, Executive Orders, National Emergencies, the Constitution, Federal Law and U.S. Codes, National Guard in operations and federalized, amongst all other Law and Orders?

Defense.gov:
https://www.defense.gov/News/News-Stories/Article/Article/2784569/army-navy-satellite-communication-mission-areas-shift-to-space-force/

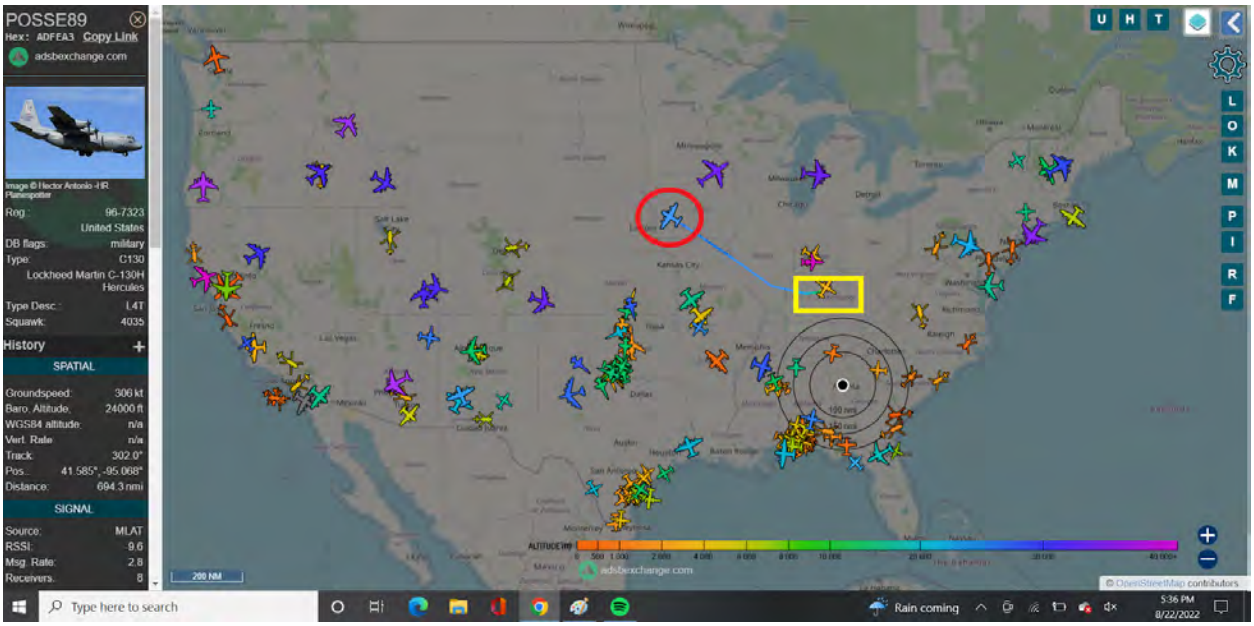
Did you see a common theme in all of those?

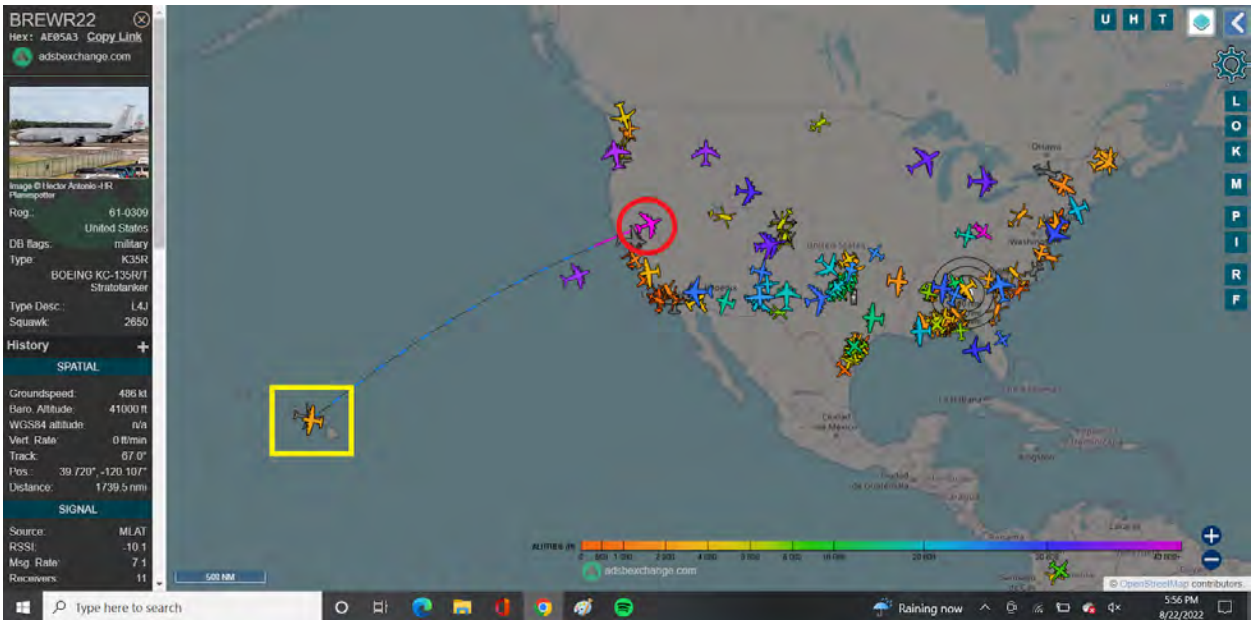
Not one mention of Joe Biden who is supposedly “President” which is also “Commander-in-Chief”... you know, the highest rank in the Military.

HAHAHAHAHAHAHAHA!

Wake up sleepy Americans.



C-130H Hercules Kentucky **National Guard**



KC-135R/T Stratotanker returning to Wisconsin from Hawaii
